MATERIAL OPTIONS

We design our products with materials carefully chosen for their beauty, longevity, and safety.

URBANA VINYL

- Light and durable
- Dual aesthetic boards allow you to choose between wood grain or brushed finish on most products
- BPA and phthalate free
- 10 year warranty and maintenance free

CLASSIC VINYL

- Classic white styling
- Long product lifespan
- BPA and phthalate Free
- 20 year warranty and maintenance free

NATURAL CEDAR WOOD

- FSC cedar wood
- Food grade water based stain
- Cedar contains natural preservatives that help it resist insects and decay
- 1 year warranty and low maintenance
- Natural wood grain color variation (no item has the same grain color, finish, or wood knots due to natural factors)

EMBOSSED VINYL

- Light and durable
- Natural look of wood
- BPA and phthalate free
- 10 year warranty and maintenance free

MSRP RANGE

\$95.99 - \$479.99 USD
\$103.99 - \$519.99 CAD

3 cu. ft. - 35 cu. ft.

KEYHOLE COMPOSTING GARDENS

COMPOST AND GARDEN ALL IN ONE

Inspired by the African keyhole gardening technique, the Keyhole Composting Garden lets you compost household waste and grow vegetables in the same garden.

DO LESS. GROW MORE.

A central compost basket is used in the Keyhole Garden to conveniently place your daily kitchen scraps. This household waste is then organically transformed into nutrient rich soil that nourishes your vegetables. It's smart, sustainable and beautifully designed.

BEAUTY THAT'S SUSTAINABLE

Each keyhole garden reduces water consumption up to 70% while increasing overall yield and minimizing overall household waste by 30%. These thoughtful garden beds are crafted from food grade BPA/Phthalate-free vinyl or water-based stained FSC cedar wood and are built to last.

ADAPTIVE AND INTUITIVE

Boards slide into the posts easily and conveniently, with no need for tools or screws. Our innovative posts make for perfectly modular beds, allowing you to design and configure your own unique layout and size.

COMPOSTING 101 - EVERYTHING YOU NEED TO KNOW!

Food waste accounts for over 22% of all waste that goes into landfills, that's more than any other single material in our everyday trash. Thankfully, there is a way to sustainably dispose of your household waste, while simultaneously enriching your garden soil. It's called 'Composting'.

WHAT IS COMPOSTING?

Simply put, composting is the practice of creating compost.

This process recycles various organic materials (i.e. kitchen food scraps) otherwise regarded as waste products and produces a material called compost (technically "humus") that is like rocket fuel for your soil.

WHO BENEFITS?

YOU

Composting is a wonderful, affordable (it's free) and effortless way to recycle at your home.

YOUR SOIL

Compost improves soil structure, prevents the growth of weeds and regulates moisture in the soil. Compost fed soil uses up to 70% less water.

YOUR PRODUCE

Compost teams with microbial life – good micro-organisms keep soil healthy and make nutrients readily available to growing plants. This means a bigger harvest and tastier vegetables.

YOUR WORLD

Composting minimizes methane emissions that contribute to climate change. It also acts as a natural fertilizer, reducing the need for chemical options, which can be harsh on the earth.

ELEVATED GARDENS

EFFORTLESS SIMPLICITY

Our elevated gardens are simple to build and maintain, ensuring an effortless gardening experience. Assembly can be completed quickly, with minimal tools and labor. The elevated designs minimize back and knee strain and are ideal for small patios, decks, apartments or backyard gardening making growing your own food simple and accessible.

BREAKING NEW GROUND

The World Garden is a self-watering designer garden that allows you to grow fresh food right from your own home, balcony or patio. The World Garden is the recipient of the 2017 A'Design Award, for its new and inventive ways of making home food production more accessible.

FOOD AT YOUR FINGERTIPS

Distinctive, elevated design and effortless functionality, Vita elevated gardens are perfect for growing vegetables, herbs or flowers in outdoor and indoor areas with limited space.

SIZE RANGE

CLASSIC VINYL

SIZE RANGE

6.5' x 6.5' - 12' x 24'

MSRP RANGE

\$839.99 - \$6,359.99 USD
\$909.99 - \$6,889.99 CAD

FIND YOUR PERFECT MATCH!

FREESTANDING

This is the pergola's pergola. It's freestanding, comes in a range of sizes and can be placed almost anywhere in your outdoor space (within reason).

ATTACHED

Why stop at the back door when you can take the party outside? An attached pergola connects right onto your home, so you can keep the good times rolling.

LOUVERED

To sun, or not to sun? We'll let you decide. Pergolas with adjustable louvers allow you to choose between sun and shade all day long.
